

Project Design Phase-I

Solution Architecture

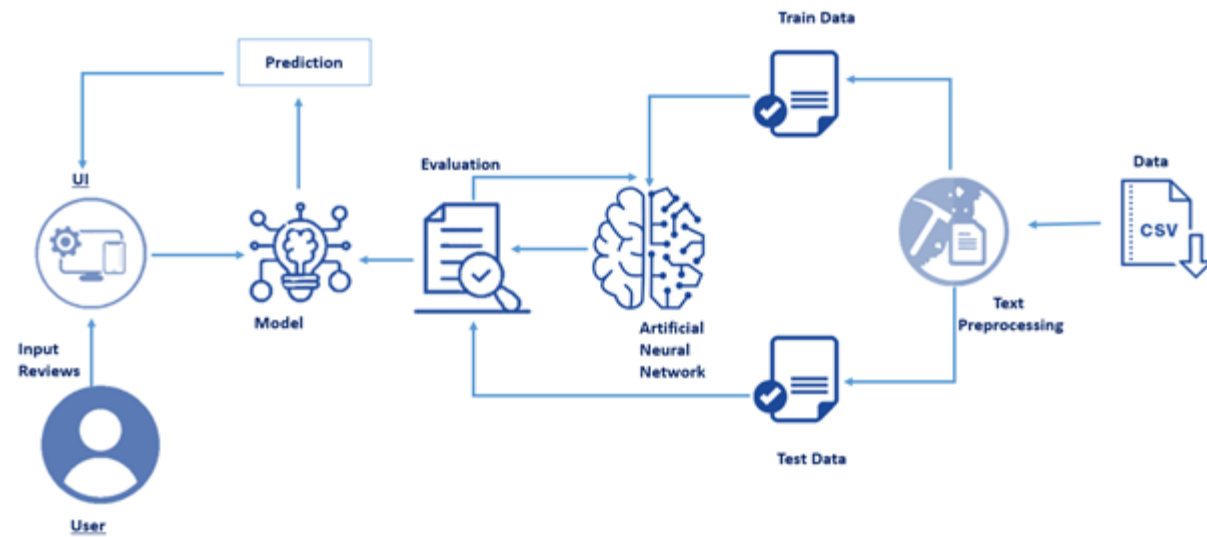

Date	15-10-2022
Project Name	University admit eligibility predictor
Maximum Marks	4Marks

Solution Architecture:

Solution architecture is a complex process – with many sub-processes – that bridges the gap between business problems and technology solutions. Its goals are to:

- Students are often worried about their chances of admission to University.
- The aim of this project is to help students in shortlisting universities with their profiles.
- The predicted output gives them a fair idea about their admission chances in a particular university.
- This analysis should also help students who are currently preparing or will be preparing to get a better idea.
